**MELBOURNE, AUSTRALIA / Monday 24 October, 2025 – Broadband Solutions has strengthened its partnership with Vocus, leveraging one of Australia’s most advanced fibre networks to deliver enhanced connectivity and support to Accor Hotels nationwide.**

With more than 100 Accor properties already connected through the Vocus network, this collaboration cements Broadband Solutions’ position as the hospitality industry’s trusted connectivity specialist, offering exclusive rates, flexible upgrades, and seamless service transitions designed specifically for hotel environments.

**“This partnership reinforces our two-decade commitment to Australia’s hotel sector. By combining our 20 years of hospitality expertise with Vocus’ newly expanded national network, we’re giving Accor hotels a faster, smarter, and more reliable way to stay connected and all without disruption or added cost.”** said Sam Bashiry, Founder, Broadband Solutions.

For hotel owners and general managers, the partnership delivers:

- Freedom to upgrade bandwidth and hardware with ease
- Zero downtime or additional fees during transitions
- Specialised support from hospitality experts
- Proven reliability, trusted by 700+ hotels including Marriott, Hilton, IHG, and Hyatt
- Backed by more than 20 years in hospitality technology, Broadband Solutions
- provides tailored connectivity and network infrastructure that minimise downtime
- and maximise performance across every property.

This announcement follows Vocus’ acquisition of TPG Telecom’s enterprise and fibre network assets, marking a new chapter in Australia’s digital infrastructure landscape. Through this strengthened partnership, Broadband Solutions will deliver greater speed, scalability, and nationwide resilience for hotel operators, ensuring they stay ahead in an increasingly connected world.

**About Broadband Solutions:** Broadband Solutions is an Australian-owned telecommunications provider specialising in connectivity, network infrastructure, and managed services for the hospitality, education, enterprise, and retail sectors. With more than 700 hotels nationwide under management, the company is the trusted technology partner behind Australia’s leading hospitality brands.
